
Harmony Hardware and POS Solutions Inc.

Harmony Hardware and POS Solutions Inc.

Company Summary

Harmony Hardware and POS Solutions Inc was founded this year 2023. Since then, we have been on the venture of continuous expansion. To be the best choice of Filipino's partner in business using our POS System, this has been our motivation to build and evolve to become Greater and Bolder in terms of POS Hardware and Software Total Solutions.

Our founder has always been in the trend of continuous innovation over his early years in the business. His wide range knowledge in the programming industry has been the stepping stone of Harmony Hardware and POS Solutions Inc to diversify into different Software platforms that would help the sales growth and business expansion plans.

The company first started developing System Softwares that later added Hardware Machines and Supplies dominated the POS System Category in the market. Not only that, this proved its stability but also established its edge in POS Software.

Having a lot of competitors, Workloads to manage was not a hindrance for the company to stop evolving. A company with big dreams means a company with talented stakeholders. The company started finding potential talents and filling in desired corporate departments to evolve into a more mature, corporate type business entity. The company also leveled up in software based ERP systems to further improve their Inventory and supply chain management to sustain longevity and to be more automated and systematic. From Product and Category line, Manpower, Teams and Departments to System based Technology, to fortify their future successes.

A full cycle of discovery, innovation and development, A company that never stops to evolve. That is Harmony Hardware and POS Solutions Inc, the best choice of POS System's in the Philippines.
